

Energizing Innovators

ExxonMobil Chemical Synthetics newsletter

ExxonMobil

Issue 19 | October 2022

Here's the latest issue of Energizing Innovators, a newsletter providing expert insights into the synthetic lubricants industry. In this issue, we'll share with you how we can help provide solutions that support the lowering of GHG emissions in the transportation and industrial sectors.

2022 Lubricant Expo (Stuttgart, Germany Sep.4-6)

10th China IAPS (Shanghai, China Sep.6-7)

The 14th TM Symposium (Qingdao China Aug8-9)

Webinar recording

Advancing EV fluid development with next-gen base oils

Energy efficiency has been one of the major drivers in electric vehicle (EV)/driveline fluid development, as CO2 emission mandates are getting more stringent and challenging. While moving toward low and ultra-low-viscosity fluids is an effective formulation strategy to improve energy efficiency, it poses challenges in wear protection, deposits and oil drain intervals. Register for the webinar to explore how our next-gen base oils can help.
