

Advancing sustainable solutions and productivity

Hall 2-GF-A-2

At ExxonMobil, we believe in a collaborative approach that harnesses collective expertise across the value chain. Visit us at PLASTINDIA 2023, so that we can start solving your application challenges by creating differentiated solutions. Together.

Meanwhile, we will also demonstrate sustainable solutions formulated with our performance polymers through our TechTalk presentations and machine run activities. You are welcome to join us!

Wednesday, Feb 1

Lubricant

- 12:30 Problems and sources of Varnish in Hydraulic Fluids
- 16:30 Maximizing Energy Efficiency through Mobil DTE 10 Excel™ Series

Industrial Packaging

- 13:30 Raffia and heavy duty sacks solution for Industrial Packaging
- 15:30 High performance raffia incorporating next generation CaCO₃ masterbatch that enable sustainability benefits: a Vistamaxx™ and Omyamax® solution

Sustainability

- 14:30 Benefits of Plastics: Challenges and Potential Solutions

Thursday, Feb 2

Lubricant

- 10:30 Three benefits of using Mobil DTE™ 20 Ultra Series
- 13:30 Benefits of using Mobil SHC Aware™

Primary Packaging

- 11:30 Real world cases of rethinking film design with Exceed™ S PE
- 12:30 Advancing flexible packaging with sustainability benefits
- 16:30 Introduction to Exact™ plastomers

Rigid packaging

- 14:30 Value-added solutions in Rotomolding

Hygiene

- 15:30 ExxonMobil new spunbound polypropylene

Friday, Feb 3

Primary Packaging

- 10:30 Novel non barrier liquid packaging solutions

Industrial Packaging

- 11:30 High performance solutions with sustainability benefits for Collation Shrink and Stretch Wrap films
- 15:30 Raffia and heavy duty sacks solution for Industrial Packaging

Automotive

- 12:30 Challenge reality & rethink what's possible in automotive performance

Rigid packaging

- 14:30 Step out solution to maximize productivity in injection molding pails

Lubricant

- 13:30 IIOT services by Mobil™
- 16:30 An insight into Mobil Hydraulic Fluid Durability Test™

Saturday, Feb 4

Lubricant

- 10:30 Introduction to Mobil Serv™ suite of services
- 13:30 Benefits of Ultra clean hydraulic fluid

Sustainability

- 11:30 Benefits of Plastics: Challenges and Potential Solutions

Primary Packaging

- 14:30 Real world cases of rethinking film design with Exceed™ S PE
- 15:30 Advancing flexible packaging with sustainability benefits

Industrial Packaging

- 12:30 High performance raffia incorporating next generation CaCO₃ masterbatch that enable sustainability benefits: a Vistamaxx™ and Omyamax® solution
- 16:30 High performance solutions with sustainability benefits for Collation Shrink and Stretch Wrap films

Sample display and live machine run at machine manufacturers, Feb 1 - 5

OEM partner	Booth Number	Application	Details
Primary Packaging			
Alpine	Hall 4-FP-C08	High Clarity MDO-PE Film PE rich thermoformable high oxygen barrier films Creating a circular film to film loop Recyclable barrier stand-up pouch with barrier coatings and digital printing Recyclable film with EVOH coex.	Exceed™ XP and Enable™ based solution provide as low as 2.7% haze 95% by layer distribution thickness PE package From a recyclable full PE barrier packaging solution to a high end heavy duty sack 97% PE barrier pouch packaging with high-oxygen barrier, unique optics and outstanding package integrity 92% PE barrier pouch
Kabra	Hall 6-B1	Innovative non-barrier liquid packaging solution	3L liquid packaging film without LDPE
Rajoo	Hall 6-C3	Polyethylene rich (>95%+) pouches for edible oil with improved recyclability* and uncompromising package functionality	High barrier 7L film with extreme performance
Shubham	Hall 7H-(D)A3	PE//PE lamination film with superior performance	Non-MDO PE//PE laminate - 3 layer substrate and 3 layer sealant film
Industrial Packaging			
Kabra	Hall 6-B1	Downgauged collation shrink film solution	High performance 3L collation shrink film for bundle packaging
OMYA	Hall 4-FF-G-1	High performance raffia with sustainability benefits	Next generation CaCO ₃ masterbatch: a Vistamaxx and Omyamax solution
Polystar	Hall 7-E-A2A**	Enhanced recycle polypropylene with Vistamaxx™ performance polymers for high performance raffia tapes	rPP blend with Vistamaxx performance polymers to enhance recycle content in high performance raffia tapes
Rajoo	Hall 6-C3	Cross-laminated PE film	Cost effective solution for cross laminated 3L film, 2-ply (90 gsm)
Automotive			
Windsor	Hall 12A-H-A4**	ExxonMobil™ PP for high performance automotive parts	ExxonMobil™ PP solution for two wheeler Fender part

* Recyclable in communities with programs and facilities in place that collect and recycle plastic film

** Live machine runs
