

Exceed™ 3812QA

Performance Polymer

Product Description

Exceed 3812QA is an ethylene 1-hexene copolymer. Films made from Exceed 3812QA have outstanding toughness, impact strength, and puncture. These superior strength properties make this a very versatile packaging film resin and ideally suited for stretch film. It can also be used to enhance the sealing caulkability of lower melt index materials.

TnPP is not intentionally added to Exceed 3812QA.
